

If K-LOVE is taken off the air, more than just a radio station goes with it. For many people, it is the only family-safe radio station they can listen to. Now days, many radio stations play music that discourages kids and teens, but K-LOVE doesn't do that; it plays encouraging music to people of all ages.

Not only does K-LOVE play positive music, but it encourages through people and prayer as well. At least three times a day, the pastors and staff get together and pray for the listeners, those who've submitted prayer requests, and people all over the world in need of prayer. The staff is kind and the DJ's don't make rude or inappropriate comments on the air.

If K-LOVE were taken off the air, thousands and thousands of peoples lives would be affected. For many people, K-LOVE is the only radio station they listen to, and if it's discontinued they would have nothing to listen to during the day. Some could begin to listen to trashy music that would get their day off to a bad start. There aren't many radio stations out there that compare to K-LOVE, especially ones that reach out as far as it does; K-LOVE is heard all across America and online around the world, touching and changing hundreds of lives for the better every day.

Thanks for reading all the comments and keeping an open mind about keeping K-LOVE on the air. I, and many others, appreciate it! =)
